

Save the Date – University of Florida/IFAS Event

Please join The Gator Nation on **Saturday, January 21, 2012** for our annual open house. At this event, you, your family and friends will learn about:

- UF's College of Agriculture and Life Sciences (CALs) degree programs – in Gainesville, here in Broward County and on-line
- native vs. exotic reptiles in Florida (how do you catch a python?)
- beneficial insects (honey bees) vs. destructive insects (termites)
- managing your landscape (turfgrass, trees and palms)
- new nutritional guidelines (what is on your plate?)
- insects that help control invasive weeds
- how to keep a lake healthy by stocking fish and managing aquatic plants
- 4-H youth development programs
- where you can find natural Florida the way it used to be
- how to make your home stronger for the next hurricane season
- Geomatics (GPS, GIS and YOU – great careers in expanding field of study)

All of this and more at the University of Florida/IFAS Open House from **10 AM to 3 PM** at the University of Florida/IFAS **Fort Lauderdale Research and Education Center and Broward County Extension** located at 3205 College Avenue, Davie, FL. Our partners for this event include the Broward County Parks and Recreation Division, Broward County Environmental Monitoring Laboratory, U.S. Department of Agriculture (USDA) and U.S. Geological Survey (USGS).

DIRECTIONS

From I-595, exit at Davie Road. Go south on Davie Road to Nova Drive. Turn right onto Nova Drive. Turn left onto College Avenue. The Center is the first entrance on the west side of the road. Look for the blue "University of Florida" sign. Free parking is available on site.
