

A photograph of a garden bed filled with numerous small, bright yellow flowers, likely buttercups, growing densely among green, low-lying foliage. The flowers are scattered throughout the frame, with some appearing in the foreground and others receding into the background. The overall scene is a lush, natural-looking garden setting.

University of Florida
Fort Lauderdale REC
Trial Garden

A photograph of a dense field of flowers, primarily pink and red, with green foliage. The flowers are small and clustered, resembling verbena or similar species. The background is a mix of green leaves and stems, with some yellowish-green foliage visible on the right side. The text is overlaid in the center of the image.
